

SRIVATSA SUNDARRAJ

Junior Engineer – AI

+91 9629221540 | srivatsas0503@gmail.com | Chennai, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

AI Engineer with nearly 2 years of experience building enterprise-scale Generative AI systems and intelligent automation platforms. Specialized in Agentic AI, RAG architectures, multi-agent orchestration, and LLM-powered workflows, with hands-on experience deploying production AI solutions at Johnson Electric. Skilled in LangChain, LangGraph, Azure AI Services, and MCP, with strong expertise across AI architecture, deployment, and optimization. Recognized internally for driving AI innovation and delivering high impact enterprise solutions.

TECHNICAL SKILLS

Generative AI & Agentic Systems: LLMs, RAG, Agentic AI, Multi-Agent Systems, LangChain, LangGraph, LlamaIndex, MCP, Microsoft Agent Framework, AutoGen, A2A Protocol, Prompt Engineering, LiteLLM, OpenAI APIs, Llama, AI Automation, Semantic Retrieval, Workflow Orchestration

Machine Learning & AI: Machine Learning, Deep Learning, NLP, SpaCy, OCR, OpenCV

Cloud, DevOps & MLOps: Azure AI Services, Azure AI Search, Azure AI Foundry, Azure ML Studio, Azure DevOps, Azure Functions, App Services, Logic Apps, Virtual Machines, Kubernetes, Docker, Jenkins, Power Automate

Backend & Application Development: Python, FastAPI, Pydantic, Django, Flask, Streamlit, REST APIs, HTML, CSS, Bootstrap

Databases & Vector Systems: FAISS, Neo4j, MySQL, SQLite

Observability & Version Control: MLflow, Application Insights, Git

WORK EXPERIENCE

Johnson Electric | Chennai, India

June 2024 – Present

Junior Engineer – AI

Nov 2025 – Present

- **Microsoft Fabric Enterprise Intelligence Agent:** Built a Microsoft Fabric enterprise intelligence agent leveraging Direct Lake connectivity and custom API integrations to enable secure real-time querying of enterprise lakehouse datasets through internal business platforms.
- **Autonomous Online Material Discovery & Comparison Agent:** Developed a LangGraph-based autonomous research agent capable of web scraping, multi-format document ingestion, technical specification extraction, and automated comparison against enterprise material catalogs.
- **Automated Sales Email Orchestration & Routing Pipeline:** Designed and deployed an intelligent sales email automation system using Power Automate and custom LLM APIs to automate email analysis, contextual draft generation, routing, and deterministic escalation workflows.
- **AI Architecture & Technical Leadership:** Lead end-to-end AI solution architecture, implementation planning, deployment, testing, and optimization initiatives within the enterprise Innovation Lab.
- **Cross-Functional Stakeholder Management:** Collaborate with global stakeholders across business and technology teams to design and deliver enterprise AI MVPs and intelligent automation solutions.

Graduate Engineer Trainee – AI

Nov 2024 – Oct 2025

- **Multi-Database Agentic RAG Infrastructure:** Architected and deployed a production-grade Agentic RAG system using ReAct-based orchestration and MCP integrations to dynamically retrieve information across distributed vector database ecosystems.
- **Global Enterprise HR Policy Chatbot:** Built and deployed a global HR policy chatbot using LangGraph and Azure AI Search, achieving 96% production accuracy across enterprise policy datasets.
- **Autonomous Customer Support & Escalation Engine:** Developed an intelligent customer support agent in Microsoft Copilot Studio handling 60–100 customer emails daily with knowledge-backed responses and automated escalation workflows.
- **Computer Vision Component Detection System:** Built an OpenCV-based deep learning vision system to detect component misalignment on manufacturing machinery with 98% detection accuracy using Azure ML Studio deployment pipelines.
- **Commodity & Material Price Forecasting Migration:** Migrated enterprise material price forecasting workflows to Azure ML Studio, improving deployment stability while maintaining 94% forecasting accuracy.
- **Industrial Machine Manual Discovery Engine:** Developed a technical manual retrieval engine with advanced metadata filtering capabilities for industrial maintenance and troubleshooting workflows.
- **Custom IT Policy Autonomous Sub-Agent:** Built a specialized AI sub-agent integrated into a broader Agentic RAG ecosystem for enterprise IT policy and compliance query handling.
- **Executive Document Summarization System:** Developed a LangChain Map-Reduce summarization pipeline capable of processing and compressing large-scale enterprise documents beyond standard LLM context limitations.

AI Intern

June 2024 – Oct 2024

- **Generative AI SQL Data Chatbot:** Built a LlamaIndex-powered natural language interface capable of converting user prompts into SQL workflows for enterprise warehouse retrieval and analytics.
- **RAG Architecture Benchmarking:** Conducted benchmarking and evaluation across vector databases and RAG architectures to optimize semantic retrieval accuracy and inference latency for enterprise HR assistants.
- **Cloud-Native Full-Stack Deployment:** Containerized and deployed enterprise warehouse applications using Django, Flask, Docker, and Kubernetes to support scalable cloud-native workflows.

Marico Ltd | India

Data Science Intern

July 2023 – Jan 2024

- **Supply Chain & Behavioral Analytics:** Built machine learning models using Scikit-learn and Pandas to analyze supply chain behavior, purchasing trends, and distribution efficiency for business strategy optimization.
- **Automated Repo Intelligence & Metadata Parser:** Developed an NLP and API-driven metadata analysis pipeline to process GitHub repositories and Jira datasets, significantly reducing manual technical auditing effort.

EDUCATION

Bachelor of Technology – Artificial Intelligence and Data Science

KPRIET, Coimbatore | CGPA: 8.4

ACHIEVEMENTS & RECOGNITION

- **AI Trailblazer Award (x2)** — Recognized twice by Johnson Electric for pioneering AI innovations within the enterprise Innovation Lab.
- **Best Team Award (x2)** — Honored for outstanding cross-functional project delivery and measurable business outcomes.
- **Global HR Policy Chatbot Recognition** — Awarded for successfully architecting and rolling out the HR Policy Chatbot across Johnson Electric's global enterprise, achieving 96% production accuracy.
